Simplify your life and go digital

Take control of your health and your plan. By registering your account online, you'll get access to a ton of useful features.

Instant access to your digital ID card

Did you know we have one of the highest-rated apps of any health plan? Register your account and download the app to see why. One of the best features: You get access to your digital member ID card in the palm of your hand.

See your benefits

Find all your coverage details in one convenient place. By registering your account, you get digital access to your plan 24/7. You'll be able to see what is (and isn't) covered, out-of-pocket maximums, common copayments, and more.

Manage and view claims

By registering your account, you can track all your claims information online. Plus, if you see a non-network provider, you can submit the claim online or through our app for faster processing.

Check your "Plan status"

This is one of the easiest ways to confirm that your plan coverage is active for you and your family. You can access this feature by logging in to your account after registering. Just look for the words "Plan status: Active" at the top of your member dashboard page – and you're good to go.

Find doctors in your network

When you register your account, we make it easy for you to find providers that accept your plan. Simply log in to your account and use our *Find a Doctor* tool. You'll be able to locate doctors, hospitals, and specialists near you and in your network – saving you time and money.

Registering is easy.
